NATURALLY LEAN GOAT has lower fat and cholesterol, and fewer calories than chicken, pork and beef. A good source of protein with a mild flavor, consumption of goat has increased markedly as diners explore new gastronomic horizons and welcome its versatility and flavor. Because of its low fat content, it is cooked slowly and often marinated or cooked in a sauce for a flavorful and tender dish.

If you have a requirement for cuts not shown here, please contact one of our friendly team of salespeople and we will see if we can find it for you.
